- ≡ Jeroen W.B. Peters; RN, MScN, PhD;
University of Applied Sciences Arnhem-
Nijmegen.

Rotterdam

Europe's largest port city, a buzzing metropolis with a breathtaking skyline, a city where more than 170 nationalities live and work together. The city is also an excellent venue for congresses, fairs and other events catering to the business sector, NGOs and associations. Not only because of the multitude of great facilities and attractive business locations, but also because of the huge range of leisure activities on offer in Rotterdam. It comes as no surprise that Rotterdam has for years held a top place in the International Congress and Convention Association (ICCA) city rankings.
